Various options for pneumatic-lifter 200 liter

Pneumatic-lifter for 200 liter barrel „basic version":

89001 031000   Single lifter column with anti-twist design; basic version with lid holder *(without lid)*; single-lever control.

Supporting column powder-coated in RAL 7016 anthracite gray fine structure. Other parts in RAL 7035, light gray, matt.

Version with standard pneumatic cylinder.

Bandages:

89001 031000-BF   Bandages with L-section for pumps

**89001 031000-BA**   Bandages with mounting block for lid

89001 031000-B9   Bandages with support rail for lid staytube

Control panel:

89001 031000-S1R   Control panel for 2 hands operation
Safety option 1

Lid versions: *(all lids come in stainless steel)*

89001 000005   Lid for lift 200 liter barrel, octagonal

89001 000010   Lid for lift 200 liter barrel, circular version

89001 000015   Lid for lift 200 liter barrel, 1/3 hinged

89001 000000-O1   Stop bracket for 200 liter barrel, powder coated RAL 7031

89001 000000-O1A   Stop bracket for 200 liter barrel, stainless steel version

Various options for pneumatic-lifter 200 liter

Lid flange:

15012 004810	Mounting flange for pneumatic agitator motor 4Nm
89001 000015-03.3	Mounting flange with G2" internal thread for barrel pump or retaining ring
15006 000032	Retaining ring with 2" external thread for suction pipe
89001 000015-03.4	Mounting flange with G1 ½" internal thread for fluid level sensor
15006 000030	Retaining ring without thread for suction pipe
89001 000015-03.5	Mounting flange with G3/4" internal thread and return pipe
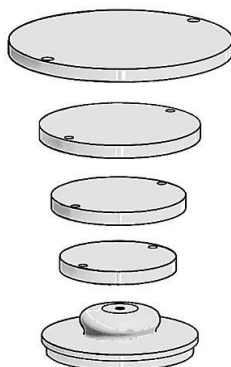

Blank flanges:

89001 000000-D125	Blank flanges (agitator opening)
89001 000000-D090	Blank flanges (suction pipe opening)
89001 000000-D075	Blank flanges (sensor opening)
89001 000000-D065	Blank flanges (recirculation opening)
89001 000000-D087	Blank flanges (spyhole opening)

Safety options:

Safety option 1: control panel equipped with contacts for **2-hand operation** when lowering the lift.

Safety option 2: **supply air turn off** function for agitator and pump if the lid is not in its lower position.

Safety option 3: **lockable ball valve** for safe air shut off in case of service jobs and permanent unserviceability.

Safety option 4: pneumatic cylinder with **ATEX** certificate.
