Overview of the Kopperschmidt Classic Line transfer pumps:

P2001 pumps are powerful, compressed air operated piston pumps for stationary use; appropriate for solvent- and water-based liquid materials, all material contact parts are made of stainless steel. The rugged designed machine is state of the art, easy to use and a high-quality tool. Information about possible combinations and the corresponding gear ratios are shown in the pump matrix below.

Piston Pump P2001

Fluid Section Air Motor	340 Fluid Section for floor mounting	340 Fluid Section for wall mounting
D160	 <i>Part-No.: P2001 076800-S</i>	 <i>Part-No.: P2001 076800-W</i>
D200	 <i>Part-No.: P2001 106800-S</i>	 <i>Part-No.: P2001 106800-W</i>
