Overview of pump mounting options for Kopperschmidt Classic Line M2001

M2001 Piston pump

M2001 Piston pump
with filter PN500

M2001 Piston pump
with swiveling hopper 4,5l

M2001 Piston pump
with pneumatic
connection unit single

M2001 Piston pump
with pneumatic
connection unit dual

M2001 Piston pump
with suction system Hobbock
flexible suction hose with strainer
<u>Industrial version</u> with 6mm wall thickness (especially non-buckling)

M2001 Piston pump
with suction system Hobbock
flexible suction hose with strainer
<u>Craftsman version</u> with 4,5mm wall thickness

M2001 Piston pump
with suction system 200l lifter
flexible suction hose with strainer
<u>Industrial version</u> with 6mm wall thickness (especially non-buckling)

M2001 Piston pump
with suction system 200l lifter
flexible suction hose with
strainer *<u>Craftsman version</u>*
with 4,5mm wall thickness

Overview of pump mounting options for Kopperschmidt Classic Line M2001

M2001 Piston pump
with trolley and suction system
Hobbock with flexible suction hose
Industrial version with 6mm wall thickness (especially non-buckling)

M2001 Piston pump
with trolley and suction system
Hobbock with flexible suction hose
Craftsman version with 4,5mm wall thickness

M2001 Piston pump with stand and rigid suction pipe, with or without check valve

M2001 Piston pump with rigid suction pipe, with or without check valve

M2001 Piston pump
with Pneumatic lift 30 liter
(stationary version)

M2001 Piston pump
with Pneumatic lift 30 liter
(mobile version)

M2001 Piston pump
with Pneumatic lift 200 liter
(hinged lid)

M2001 Piston pump
with Pneumatic lift 200 liter
(closed lid)

M2001 Piston pump
with Pneumatic lift 200 liter
(octagon lid)
